

# Premium Efficiency Condensing Tankless Water Heater **NPE - 2**

A **smarter** hot water system for today's lifestyles.

The NPE-2 series offers ultra high-efficiency up to **0.96 UEF** to keep your utility bills low and keep you in endless hot water.

### **Saves energy and easier on the planet**

Navien tankless water heaters deliver a continuous flow of hot water for as long as you need it. There's no waiting for a storage tank to warm up. Plus, there is no energy wasted heating up a storage tank of water when you don't need it!

**Compact design saves space.** The sleek, wall-mounted tankless heater occupies 80% less space than a traditional 50-gallon tank heater.

## **FEATURES & BENEFITS**

- Navien condensing stainless steel heat exchangers recover extra heat that would be lost in non-condensing units. Lower CO2 emissions and low exhaust temperatures keep your energy bills lower.
- Dual stainless steel heat exchangers, rather than copper, which extends the life of the unit by resisting corrosion.
- Backlit control panel uses simple text and icons to make set up, operation status and troubleshooting faster and easier than ever before.
- Optional Wi-Fi remote control system.

## **ONE PAYMENT. ZERO WORRIES.**

Why pay the heavy upfront costs or never-ending rental rates when you can subscribe to a low monthly rate with no money down, and own your equipment from day one? Plus, we'll regularly service your equipment and you'll never have an unexpected repair bill again.

*ClimateCare is Ontario's largest cooperative of local, independent heating and cooling retail contractors. We offer a 100% Satisfaction Guarantee - if you are not happy with our service, we'll make it right.*

## THE CLARITY DIFFERENCE *Get to know our units*

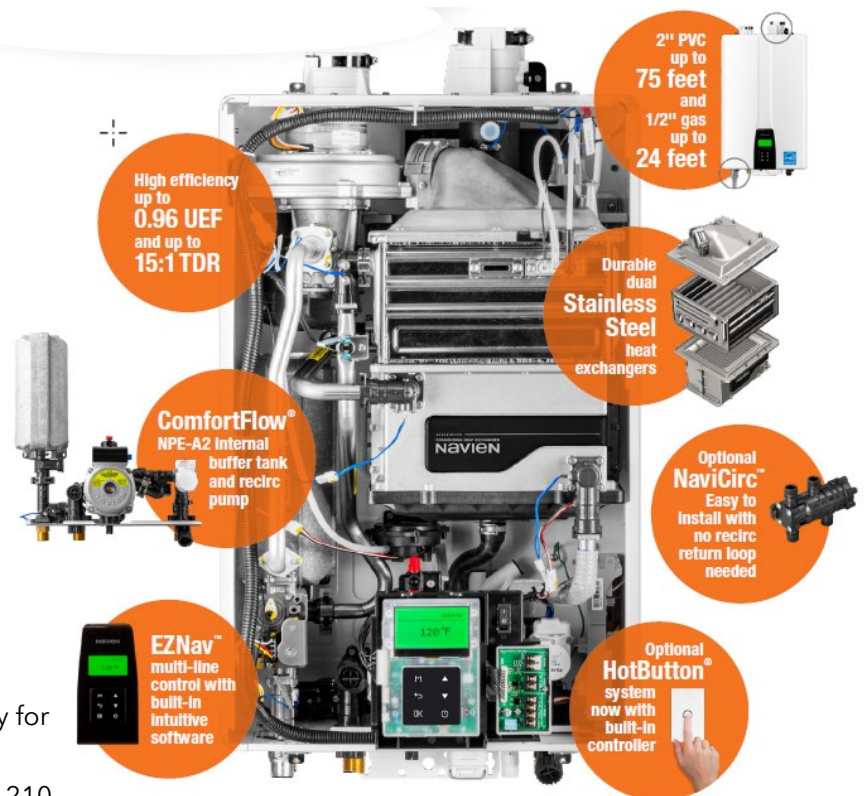

For those that want to get to the heart of our units, we've outlined some specs below to give you a detailed view of the unit you're investing in. We believe in transparency and we 100% stand by the quality of the water heaters we sell and the expertise of your local CLARITY dealer. It's just part of the CLARITY difference.

### NPE-2 temperature rise

Temp Rise (°F)	210 A2/S2 GPM (L/m)	240 A2/S2 GPM (L/m)
35	10.1 (38)	11.2 (42)
40	8.8 (33)	9.8 (37)
45	7.8 (30)	8.7 (33)
50	7.1 (27)	7.8 (30)
55	6.4 (24)	7.1 (27)
60	5.9 (22)	6.5 (25)
65	5.4 (20)	6.0 (23)
70	5.0 (19)	5.6 (21)
75	4.7 (18)	5.2 (20)
80	4.4 (17)	4.9 (19)
85	4.2 (16)	4.6 (17)
90	3.9 (15)	4.4 (17)
100	3.5 (13)	3.9 (15)
110	3.2 (12)	3.6 (14)
120	2.9 (11)	3.3 (12)
130	2.7 (10)	3.0 (11)
140	2.5 (9)	2.8 (11)

### NPE-2 DHW capacity

Models	Natural gas (BTU/H)	Propane gas (BTU/H)
NPE - 210 A2/S2	12,000 - 180,000	12,000 - 180,000
NPE - 240 A2/S2	13,300 - 199,900	13,300 - 199,900

### Size Matters

It's important to purchase a unit sized appropriately for your home and hot water requirements.

Typically, a home with 1-3 bathrooms requires size 210 and 3-4 bathrooms, requires size 240.

### Why upgrade to the Advanced model?

- It is the first and only system that incorporates a built-in insulated buffer tank and recirculation pump.
- The buffer tank eliminates the "cold water sandwich" effect and issues of minimum flow rates commonly found in other tankless water heaters. This means quicker hot water delivery and more stable water temperatures.
- Navien NPE-A models have the built-in ComfortFlow® system which eliminates a sudden blast of cold water during your hot shower, also known as "shower shock".
- The built-in recirculation pump allows the NPE-A2 to recirculate water either through an external recirc line or through existing supply lines while using NaviCirc®, without the need for external pumps or controls.
- The recirculation pump also saves on water bills by reducing the time to get hot water.
