

Ion™ 96 Variable-Speed Gas Furnace

G96CTN

Stay out of the cold and keep warm with our high-efficiency gas furnace. Its reliable two-stage gas valve and fully variable-speed blower provide enhanced temperature control for your comfort. The variable-speed blower also means you'll enjoy better summer dehumidification and a possible SEER boost as your furnace works with your cooling unit to help pull moisture out of the air. Pair it with a compatible air conditioner for a full communicating system using the Ion™ System Control.

- Up to **96.7% AFUE** rating
- ENERGY STAR® qualified on all models

FEATURES & BENEFITS

- Variable-speed blower motor and two-stage gas valve provide enhanced levels of even temperature control and comfort
- Dual fuel capable with compatible heat pump & thermostat for energy-saving heating performance
- As a two-stage furnace, it operates at low stage most of the time to save energy, smoothly ramping up the heat to high stage as temperatures drop
- Fully insulated cabinet helps keep the heat moving to your ductwork and provides quiet operation
- Air purifier and humidifier compatible
- Wi-Fi® enabled remote access with the Ion™ System Control[‡]

Complimentary communicating wall control thermostat included

100%
SATISFACTION
GUARANTEED

ClimateCare is Ontario's largest cooperative of local, independent heating and cooling retail contractors. We offer a 100% Satisfaction Guarantee – if you are not happy with our service, we'll make it right.

CLARITY
BY CLIMATECARE

THE CLARITY DIFFERENCE *Get to know our units*

For those that want to get to the heart of our units, we've outlined some specs below to give you a detailed view of the unit you're investing in. We believe in transparency and we 100% stand by the quality of the furnaces we sell and the expertise of your local CLARITY dealer. It's just part of the CLARITY difference.

SPECIFICATIONS

- High efficiency variable-speed, constant airflow ECM blower motor
- Variable-speed induced draft combustion motor
- Energy-saving two stage gas valve
- RPJ® (Rigid Press Joint) primary heat exchanger, stainless steel secondary heat exchanger
- High temperature limit control helps prevent overheating
- Solid, pre-painted steel insulated cabinet with tight fit door latch system
- Sound-reducing features: soft mounted blower and inducer motor
- Compatible thermostat: Ion™ System Control for full function and efficiency capability, Wi-Fi® remote access convenience and intelligent diagnostics
- Heating capacity: 60,000–120,000 BTUh
