

Two-Stage 96 Gas Furnace

PG96VTA

Keep cozy when it's cold outside with our high-efficiency gas furnace. Its reliable two-stage operation and variable-speed blower provide enhanced temperature control for your comfort. The variable-speed blower also means you'll enjoy better summer dehumidification as your furnace works with your cooling unit to help pull moisture out of the air.

- Up to **96.0% AFUE** rating
- ENERGY STAR® qualified on all models

Timely registration required. See warranty certificate for details and restrictions.

Timely registration required. See warranty certificate for details.

FEATURES & BENEFITS

- Variable-speed blower motor and two-stage gas valve provide enhanced levels of even temperature control and comfort
- As a two-stage furnace, it operates at low stage most of the time to save energy, smoothly ramping up the heat to high stage as temperatures drop
- Dual fuel capable with a compatible heat pump and thermostat for energy-saving heating performance
- Fully insulated cabinet keeps the heat moving to your ductwork & provides quiet operation
- Air purifier and humidifier compatible
- High temperature limit control & reliable gas valve promote safe operation

BACKED BY EXCEPTIONAL WARRANTIES

- 10-Year Parts Limited Warranty upon timely registration+
- 20-Year Heat Exchanger Limited Warranty upon timely registration‡

ClimateCare is Ontario's largest cooperative of local, independent heating and cooling retail contractors. We offer a 100% Satisfaction Guarantee - if you are not happy with our service, we'll make it right.

THE CLIMATECARE DIFFERENCE *Get to know our units*

For those that want to get to the heart of our units, we've outlined some specs below to give you a detailed view of the unit you're investing in. We believe in transparency and we 100% stand by the quality of the furnaces we sell and the expertise of your local ClimateCare member. It's just part of the ClimateCare difference.

SPECIFICATIONS

- Variable-speed, constant torque ECM blower motor
- Variable-speed induced draft combustion motor
- Energy-saving two-stage gas valve
- RPJ® (Rigid Press Joint) primary heat exchanger, stainless steel secondary heat exchanger
- Solid, pre-painted steel insulated cabinet with tight fit door latch system
- Sound-reducing features: soft mounted blower and inducer motor
- Heating capacity: 39,000-117,000 BTU
