

High Efficiency Gas Furnace - Cold Climate Air Source Heat Pump (ccASHP) Hybrid Solutions

Our hybrid systems use electricity to cool your home in the summer and heat your home during the milder winter months; and only uses your natural gas or propane burning furnace as a backup when it gets really cold.

A hybrid system is the best of both worlds - the quiet operation, small footprint and enhanced efficiency of a cold climate air source heat pump system, combined with the high performance of a gas furnace.

- Up to 20.5 SEER cooling
- Up to 12.0 HSPF
- ENERGY STAR® qualified

FEATURES & BENEFITS

- Ensure your home's temperature is exactly where you want it. The inverter compressor operates as a variable speed system, supplying just the right amount of heating and cooling as needed.
- A hybrid gas-electric system using a heat pump and gas furnace can reduce your gas use by up to 75% compared to heating with gas alone. Your savings will go up each year as both fuel costs and the Federal Carbon Tax increases.
- Control it with your favorite smart thermostat; like the ecobee.
- Built with added protection to ensure durability and longevity. The basepan heater in the outdoor unit helps to prevent freezing in weather conditions that would otherwise lead to damage to the outdoor unit.

BACKED BY EXCEPTIONAL WARRANTIES

- DLCSRBH Cold Climate Air-source Heat Pumps feature a 10-Year Parts Limited Warranty±
- N95ESN furnaces feature a LIFETIME heat exchanger and 10-year parts warranty
- G96VTN furnaces come with a LIFETIME heat exchanger, 10-year parts, and 5-year No Hassle Replacement limited warranty ± Our No Hassle Replacement™ limited warranty means comfort with no questions. Your unit will be replaced if the compressor or coil fails within the covered period.

We believe in transparency and we 100% stand by the quality of the heating & cooling equipment we sell and the expertise of your local ClimateCare member. It's just part of the ClimateCare difference.

GREENER HOMES GRANT QUALIFYING MATCHES

*Disclaimer: This list is for reference only. The complete list of Green Home Initiative compliant equipment is available for download from the NRCan website.

ClimateCare is not responsible for grant approvals or payments. The installing dealer is responsible for confirming that any installed equipment complies with the Program and completing all attestation forms.

ALWAYS CHECK THE MODEL NUMBER AGAINST THE PROGRAM'S APPROVED LIST WHEN ORDERING EQUIPMENT AND CONFIRM THAT THE EQUIPMENT RECEIVED MATCHES THE LIST BEFORE INSTALLATION

ClimateCare is Ontario's largest cooperative of local, independent heating and cooling retail contractors. We offer a 100% Satisfaction Guarantee - if you are not happy with our service, we'll make it right.
