

# PEACE OF MIND

FROM THE HEATING & COOLING PROFESSIONALS WHO CARE

# CLARITY

BY  CLIMATECARE.

# PLANNING TODAY FOR PEACE OF MIND TOMORROW

Let's face it - weather in Ontario can be unpredictable. One moment it can be hot and another moment it's freezing cold.

When it comes to your home comfort system, guesswork shouldn't be an option. We're talking about the consistent, behind-the-scenes machines like your air conditioner, furnace, water softener and water heater that do all the heavy lifting so you and your family can live your life comfortably and get true peace of mind.

But what happens when something doesn't work, or you need expensive repairs? With our all-inclusive Home Comfort Subscription, you'll never have to worry again.

# WHY CLARITY?

## ONE STOP SHOP

From air conditioners, heat pumps and furnaces to water heaters and softeners - our licensed technicians are experts at what they do and work with quality manufacturers to deliver a complete, safe and flawless home comfort solution.

## ONE PAYMENT. ZERO WORRIES.

Peace of mind defined: One low, all-inclusive monthly payment that considers everything - including scheduled maintenance visits and a 12-year warranty - ensures year round comfort. Plus, you'll own your unit from day one.

## NO SURPRISES

Your subscription covers the cost of equipment and installation and includes 12-years of parts, labour and service, so there's no unexpected cost - only true peace of mind.

## REGULARLY SCHEDULED MAINTENANCE

We take care of the heavy lifting by scheduling regular precision tune-ups. We'll check the gas line for dangerous leaks and perform other crucial inspections. Safety for your home and family could be the most important benefit of owning with CLARITY by ClimateCare.

## MORE SAVINGS EQUALS BETTER VALUE

Our highly trained technicians live and work in your neighbourhood, so when you choose us, you're supporting a local business. The bonus is that we're Ontario's largest HVAC cooperative, which means our buying power lets us offer even better value than the large utility suppliers and big box stores.

# Worry-Free Home Comfort

- ✓ New high-efficiency equipment
- ✓ No money down
- ✓ Installation included
- ✓ Equipment ownership from day one
- ✓ 12 years parts and labour warranty
- ✓ No unexpected repair fees
- ✓ Regularly scheduled maintenance
- ✓ Pay off at any time with no penalties
- ✓ 100% satisfaction guarantee

# Safety, Efficiency and Years of Reliability

CLARITY by ClimateCare offers top-quality air conditioners, heat pumps, furnaces, water heaters and softeners from leading North American brands. Our state-of-the-art products are highly efficient, expertly installed, and come with a comprehensive 12-year parts and labour warranty.

## Air Conditioners

Durability and Quality

Experience the remarkable efficiency, quietness, and energy savings of our modern, advanced units. With up to 15 SEER efficiency, they offer incredible value while being ENERGY STAR® certified, ensuring energy savings without compromising functionality.

## Furnaces

High Efficiency Means Lower Costs

Our gas furnaces feature high-efficiency motors that reduce electrical costs and energy usage. With up to a 98% AFUE rating on select models, they are ENERGY STAR® certified for energy savings and enhanced comfort.

Complimentary voice-controlled smart thermostat on select models

## Water Heaters

Tank or Tankless, CLARITY Quality Saves You Money

Combined with our maintenance, your popular and more affordable tank heater will keep you in consistent hot water (the good kind!) while cooling down your monthly expenses. Tankless water heaters offer the most efficiency and savings by instantly heating water only as needed, providing an unlimited supply and allowing temperature adjustments for various needs.

## Water Softeners

The Easy Solution for Hard Water

Our premium water softeners provide numerous benefits, including silkier hair, smoother skin, cleaner dishes, and more efficient house cleaning. They remove clear water iron and soften water without any waste, using less than \$3 a year in electricity.

## Heat Pumps

Versatile, Cost-effective, Energy-saving

Heat pumps offer year-round cooling and heating, functioning like air conditioners in summer and providing efficient electric heating in winter. They extract and transfer outdoor heat indoors for warmth, and remove indoor heat for cooling. Fully electric systems eliminate fossil fuels altogether, while hybrids use electricity with a backup furnace for the coldest days.

**BUNDLE AND SAVE!**

Save by bundling multiple home comfort products!

Join the thousands choosing the clearly wiser alternative for their home comfort needs.
